## OUTLOOK

### India

- *The growth momentum in the auto industry continued into Q3F11. Compared to Q3F10, in Q3F11 passenger vehicle (cars, UVs and MPVs) production grew by 22%, MHCV production grew by 22% and LCV production by 41%. On a YTD basis, passenger vehicle production grew by 31%, MHCV production by 50% and LCV production by 41%. This growth momentum is expected to sustain in the next quarter.*

### Europe

- *The German economy continued to grow robustly in this quarter. Our main market segment in Germany - CVs (>6t) - showed strong signs of recovery in the first half of FY11. The trend*

continued in Q3F11 with production growing by 120% over Q3F10. On a YTD basis, production in this segment grew by 110% over the same period last year.

- *The strong growth has led to strong pressure price of inputs on like steel and on wage costs.*

### **Overall**

- *Our vision is to be one of the world's leading forging companies that leverages an 'art to part', or design to manufacturing competence. The key elements of our strategy are:*
  - *short term: REBOOT to reduce costs*
  - *medium term: REINVENT to move up the value chain*
  - *long term: REIGNITE to pursue growth*
- *The company has adopted a strong and proactive strategy that is focused on exploiting the growth opportunity in India, consolidating profitability in Europe and exploiting synergies between India and Europe. Furthermore, MFL continually seeks synergies with other companies in the M&M Systech sector fold as well as M&M itself. Such an integrated approach gives us a unique edge in the market place.*
